Prevent horseplay, please ensure children are not pushing, colliding, fighting or behaving in a manner likely to injure or cause distress to others. Somersaults are strictly forbidden, as these are very dangerous on these types of equipment.
11. Do not allow any users to bounce on the front safety step, as a child could easily bounce off the inflatable and get hurt. The step is there to assist users in getting on and off.
12. It is essential to ensure that no-one with a history of back or neck problems are allowed on the Inflatable. Also do not allow any child who is feeling unwell.
13. Alcohol or any other substance is forbidden when using or supervising the Inflatable.

17. The Inflatable should not be used if it becomes wet in the jumping area. In the event of rain, if no shower cover is fitted then the unit should not be used.
18. In the event of rain, please leave inflated. If the rain stops, wetness (including bubbling, which is normal) can be dried with a towel.

19. In the event of heavy wind (gale force 5 on the Beaufort scale, this can be identified by small trees in leaf beginning to sway) the Inflatable should be evacuated and deflated.
20. The blower vent must be kept clear at all times and in an upright position.
21. If you are unsure about anything please contact us.
22. It is the hirers responsibility to point out / mark any underground services where the inflatables are to be sited. Our anchor stakes are 380mm long and services should be deeper. However on private property this isn't always the case. We will not be held liable for any damage caused to underground services that we aren't pre-warned about.
23. It is the hirers responsibility to check and gain land owners permission. By signing this hire agreement you are confirming you have obtained the land owners permission.
24. All equipment must be used / operated in accordance with manufactures' instructions and recommendations, including any limitations with height or age. The unit must not be moved or tampered with once it has been setup.
25. In the event that the blower stops working, please ensure all users get off the inflatable immediately. Make sure the blower tube or deflation tube has not come undone, or something has blown onto and is obstructing the blower. In the event that the blower overheats or loses power, switch the blower off at the mains, then wait 2 minutes before turning on again. The blower should restart, if it does not, contact us immediately on 07513965702 / 07584088165.
